1 Introduction

2 Overview

2.1 Commonality Analysis

2.2 Lattice Boltzmann Method Solvers

3 Terminology and Definitions

3.1 Software Engineering Related Definitions and Acronyms

4 Commonalities

4.1 Lattice Boltzmann Method Solvers

4.2 Input

4.3 Output

4.4 Nonfunctional Requirements

5 Variabilities

5.1 Lattice Boltzmann Method Solvers

5.2 Input

5.3 Output

5.4 System Constraints

5.5 Nonfunctional Requirements

6 Parameters of Variation

6.1 Lattice Boltzmann Method Solvers

6.2 Input

6.3 Output

6.4 System Constraints

6.5 Nonfunctional Requirements
