Dr. Anthony McGoron
Editor-in-Chief
Critical Reviews in Biomedical Engineering

Re: Revisions to Review Article

Dear Dr. Anthony McGoron:

Thank you for expressing your concerns. To address them, we are submitting a revised version of our paper “State of the Practice for Medical Imaging Software Based on Open Source Repositories”. The text has been modified to eliminate the textual similarity to our paper: Smith, S., Michalski, P., Carette, J. et al. State of the Practice for Lattice Boltzmann Method Software. Archives of Computational Methods in Engineering 31, 313–350 (2024).

The “State of the Practice for Lattice Boltzmann Method Software” paper is frequently cited in the non-redacted version of our submission. Those citations were redacted for the purpose of the double blind review.

Thank you for considering our work for publication in your journal. If you have any further questions or concerns, please let me know.

Best regards,

A handwritten signature in black ink, appearing to read "Spencer Smith", written in a cursive style.

Spencer Smith
